Al Rey Villagracia

has successfully completed the online, non-credit Specialization

Microsoft Power BI and Power Platform for Productivity

Congratulations on completing the Microsoft Power BI and Power Platform for Productivity Specialization! You've gained a powerful skill set in data analysis and business automation. This certificate demonstrates your job readiness and can be shared with your professional network. In this program, you've engaged with instructional videos, assessments, and practical exercises, gaining a deep understanding of key aspects of Power BI and the Power Platform, including:

- Advanced data analysis using Excel and Power BI
- ETL processes, data modeling, and DAX calculations
- Designing compelling reports and dashboards
- Utilizing Copilot to enhance Power BI productivity
- Creating custom apps with Power Apps
- Automating processes with Power Automate
- Building chatbots using Power Virtual

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
