Al Rey Villagracia

has successfully completed the online, non-credit Specialization

Data Visualization & Analytics in Tableau

Learners gained the skills necessary to become an expert data visualizer - creating both basic and complex charts in Tableau, understanding the underlying data structure of unknown data sets, and implementing advanced tools capable of forecasting, clustering and showing trends. Learners completed a capstone project at the end of the Specialization to apply their new knowledge and skills.

Kenneth Miller, M.S.
Adjunct Faculty | Senior
Data Analyst
Marketing, Data &
Analytics

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
